II. Catalog Description

Prerequisites: Introduction to Criminal Justice, CRMJ 101. This course examines the organizational framework, authority structure and major functions of representative police agencies. Analysis is made of the administrative problems of allocating responsibility and support functions. The basics of administering a police organization such as recruitment and selection of personnel, career advancement, training, fiscal and planning operations and auxiliary and staff functions are areas of special comment. This course also explores the impact of socioeconomic, political, and technological realities on police organizations.

III. Statement of Course Need

This course is a part of a comprehensive curriculum that seeks to analyze the complex organizational and management process through examination of their components. Toward this end, this course plays an integral part towards understanding the procedures, the principle actors, and the diverse functions of managing a law enforcement agency.

IV. Place of Course in College Curriculum

Criminal Justice Elective
As posted on NJ Transfer, this course transfers to most institutions as Police Organizations or as an elective.
