

**RARITAN VALLEY COMMUNITY COLLEGE
ACADEMIC COURSE OUTLINE**

CSIT 292- Computer Science Cooperative Education I

I. Basic Course Information

- A. Course Number and Title: CSIT 292 – Computer Science Cooperative Education I
- B. New or Modified Course: Modified
- C. Date of Proposal: Semester: Fall Year: 2018
- D. Effective Term: Fall 2019
- E. Sponsoring Department: Mathematics and Computer Science
- F. Semester Credit Hours: 3
- G. Weekly Contact Hours: Lecture: N/A
Laboratory: N/A
Work Site: 135 hours
Out of class student work per week:
- H. Prerequisites: 12 or more credits in Computer Science /
Computer Programming / Networking /
Multimedia Communications / Game
Development / Computer Support/Web
Development / Information Systems &
Technology, Coop Coordinator's Approval,
Coordinator is Stephen Brower,
stephen.brower@raritanval.edu
- I. Laboratory Fees: None
- J. Name and E-Mail Address of Department Chair and Divisional Dean at time of approval
Lori Austin [-lori.austin@raritanval.edu](mailto:lori.austin@raritanval.edu) (Chair)
Sarah Imbriglio [-sarah.imbriglio@raritanval.edu](mailto:sarah.imbriglio@raritanval.edu) (Divisional Dean)

II. Catalog Description

Prerequisite: 12 or more credits in Computer Science / Computer Programming / Networking / Multimedia Communications / Game Development / Computer Support/Web Development / Information Systems & Technology and Coop Coordinator's Approval. Students learn best by doing. Co-operative Work Experience Education offers students an on-the-job training program directly related to their academic major and career interests. Its purposes are to help students choose a career, find the right job and achieve success on the job. It provides a supervised off-campus work assignment through which students earn degree credit and in most situations, a salary as well.

III. Statement of Course Need

- A. Co-operative education opportunities are an integral part of the experiential learning process for students seeking careers in Information Technology field. This course will afford the student an opportunity to connect the academic material with the day-to-day responsibilities of Information Technology professions. By interacting with practitioners, students develop marketable skills and begin to establish valuable networks. Through observation and participation, students are better informed to decide on career choices.
- B. The lab component for this course consists of 135 hours at a selected worksite in an Information Technology field.
- C. This course may transfer as a computer elective.

IV. Place of Course in College Curriculum

- A. Free Elective
- B. This course is an program option for:
 - 1. Computer Networking & Cybersecurity AAS Degree
 - 2. Computer Networking & Cybersecurity Certificate
 - 3. Computer Programming AAS Degree
 - 4. Computer Support Certificate
 - 5. Information Systems & Technology AAS Degree
 - 6. Interactive Digital Media & Web Development AAS Degree
 - 7. Interactive Digital Media & Web Development Certificate
- C. This course serves as a Computer Elective on the Computer and Programming Electives List
- D. To see course transferability: a) for New Jersey schools, go to the NJ Transfer website, www.njtransfer.org; b) for all other colleges and universities, go to the individual websites.

V. Outline of Course Content

- A.** Students and agency supervisors will develop a set of five substantive goals for completion during the course of the semester. These goals will be approved by the program coordinator. Students will keep a daily journal of observations, experiences and analyses of practices. Students will also keep regular time records, which will be verified by the agency supervisor and complete regular evaluations of progress toward their goals.
- B.** In addition to regular communication and collaboration with the coordinator, the student will attend three scheduled seminars with the Computer Science cooperative education coordinator.
- C.** Student will write a paper that addresses their experiences in their position and how it relates to the material learned in academic courses

VI. General Education and Course Learning Outcomes

A. General Education Learning Outcomes:

At the completion of the course, students will:

- 1. Produce written work that reflects critical analysis of their experience, observation and participation at their agency. (GE-NJ 1)
- 2. Develop the ability to communicate clearly and logically, using both verbal and writing skills, with members of the Information Technology Organizations and its end clients. (GE-NJ 1)

B. Course Learning Outcomes:

At the completion of the course, students will be able to:

- 1. Apply hands on skills learned such as
 - a. troubleshooting client/server computer issues
 - b. configuring computer networks
 - c. designing, developing and coding in programming languages
 - d. designing, developing, and deploying Web Pages / Web Sites
- 2. Write about the learning experience in the position.

C. Assessment Instruments

- 1. Supervisor reports of hours worked and tasks completed
- 2. Written paper

3. Regular communication with coop coordinator

VII. Grade Determinants

Due to the nature of the course, traditional types of evaluation are less appropriate and as such, various subjective methods of evaluation are necessary.

Student grades will be based in part on:

- A. the agency supervisor's evaluation of the student's on-the-job performance
- B. the student's ability to demonstrate to the coordinator that he/she has experienced academic benefit from the work assigned
- C. the student's daily journal
- D. written paper.

Modes of Teaching and Learning

- A. On the job training, observation, participation and experience
- B. Regular communication and collaboration with coordinator.

VIII. Texts and Materials

A book will be selected depending on the technology used and the nature of the position.

(Please Note: The course outline is intended only as a guide to course content and resources. Do not purchase textbooks based on this outline. The RVCC Bookstore is the sole resource for the most up-to-date information about textbooks.)

IX. Resources

The course will take place off-campus, at the workplace, and no special RVCC resources will be required.
